

Nordic Components Barrel Clamp Q.D.A.

- Degrease center drilled and tapped hole on your barrel clamp
- Align the Q.D.A's large holes with the fasteners on the barrel clamp to allow access for disassembly. Doing so will prevent the Q.D.A. from needing to be removed for disassembly
- Install Q.D.A. with provided fastener through the center hole of the Q.D.A. into the center hole of the barrel clamp
- Thread-locking compound can be used if desired
